CODE 3®

CD3766BW-VDL

Dual Switch and Adjustable

Chase™ Dash and Deck Light

Benefits

- Provides users with the ability to cycle through flash patterns and power on and off with a dual switch control.
- Prevents flashback and simplifies installation with an adjustable visor
- Designed to increase the longevity of the light with a heat resistant, durable polycarbonate lens
- Directional LED warning light that can be programmed to flash either color individually or alternately

Design Features

- 69 flash patterns
- LEDs colors are red/blue, red/white, blue/white and amber/white
- Synchronizable to Code 3's Chase, MR6, Mega Thin™, and M180™ families
- Four suction cups to mount to front or rear windshield and two-L brackets for deck mounting
- Rear carriage bolt track for easy mounting with existing brackets
- Aluminum housing and a heat resistant polycarbonate lens
- Adjustable visor
- Dual switch control
- 8.5 foot cable

Specifications

- 2.25" H x 7.75" W x 4.50" D (57 x 197 x 114 mm) (excluding suction cups)
- 12/24 volt
