

The Crook is a highly durable hooking tool from Reach and Rescue

The Crook

USES AND APPLICATIONS

The Crook is a highly durable hooking tool and is designed based on the traditional 'shepherd crook', to enable easy hooking onto the casualty. The design and stainless steel material of this attachment makes it a highly durable hooking tool. It is safe and effective for human, animal and general retrieval.

HOW TO USE

The sleeved fitting is designed to slide over the pole top fitting, which secures it in place using a double sprung button mechanism. Use by extending the pole to the casualty with or without the clamping float (depending on distance). Once engaged, normal procedure applies.

MAINTENANCE & PRECAUTIONS

The sleeve fitting should be regularly tested on the pole top fitting, as damage will prevent the attachment from fitting securely.

SPECIFICATIONS

- Material: Stainless Steel
- Weight: 10.2 oz.
- Length: 12.6 in.
